

Doverie Brico AD is created to build and operate stores in Bulgaria, Serbia, Macedonia, Albania, Kosovo and Montenegro. We are successfully present in Balkan region with 10 stores in Bulgaria, 3 stores in Serbia and 1 store in Macedonia.

We are looking for dynamic and creative person to join our IT department for the position:

## SOFTWARE DEVELOPER

### Main responsibilities:

- Design and implementation of multiple end user applications, including but not limited to an executive information system
- Develop the Information System to meet the needs of the business
- Software and Database support for all company retail stores and warehouses in Bulgaria, Serbia and Macedonia
- Analyze and interpret customer business needs and translate them into feature driven requirements
- Take a part in user trainings and help them in their daily work with Information Systems

### Required experience and skills:

- University degree
- Experience with one of the following: Java, C/C#/C++, .Net, Visual Basic, Pascal
- Understanding of RDBMS
- Able to adapt to changing circumstances and comfortable with inherent uncertainty in software development
- Experience with Excel / VBA
- Flexible and willing to undertake a variety of tasks and welcome challenges
- Enthusiastic and self driven
- Team player
- Very good command of English

### Advantages:

- Experience with Oracle and TOAD
- Experience with UNIX
- Experience with virtualization hypervisors

If you are interested for the mentioned position, we expect your CV and cover letter.  
Candidates for the position should send their application to Diana Dzhudzheva, Recruitment and Training Manager, at [dianad@mr-bricolage.bg](mailto:dianad@mr-bricolage.bg).

All applications will be treated in strict confidentiality, only short listed candidates will be contacted.
