

## Electronic Hardware Design Engineer Internship

You are a talent with strive for knowledge? You want to be mentored by engineers that are experts in their fields? You wish to join other interns and have the foundation for sustainable and long lasting development in our company?

With this internship you will join Antelope Audio with a long term perspective to learn and grow professionally. We would be happy to welcome you to join us upon completing your degree so that you can experience the gratifying work, our competitive benefits, exceptional professional development opportunities and a culture of innovation that embraces diversity, inclusion, flexibility, collaboration, and career growth.

Antelope Audio designs, manufactures and markets professional digital audio equipment. The company has been steadily growing and at this point we are looking for interns to join our R&D team working on the new generation of advanced digital audio hardware. Our clients include Warner Brothers, Universal Studios, Sony Music and stars like Rihanna, Jay-Z, Korn, Dusty Kid, Wu Tang and Andrea Bocelli. Our Rubidium Atomic Master clock generator has been extensively used to produce the soundtrack of Avatar.

**This position will make you familiar with the complete process on how a product is born, raised and marketed. It provides an exciting opportunity to gain hands-on knowledge on how to:**

- ⑩ Design and Debug advanced analog audio and power supply circuits
- ⑩ Use specialized audio measuring instrumentation to characterize product performance
- ⑩ Develop high speed digital peripherals like Thunderbolt3 TM, Ethernet etc.
- ⑩ Implement inter-chip communication interfaces like PCIe, SERDES, I2S etc.

### Highlights:

- ⑩ Working with a cross-disciplinary team of similarly bright and motivated engineers on a diversity of projects all at once
- ⑩ A supportive culture of learning, professional growth, and development

If you are a "self starter" that possesses the aforementioned qualities, we would love to hear from you. To apply for this position please send us your CV at [hr@antelopeaudio.com](mailto:hr@antelopeaudio.com).

All inquiries are strictly confidential. Only shortlisted applicants will be contacted.
