

C Embedded Software Interns

Kostal has an exciting opportunity for **Embedded Software Interns** to join its Automotive Software R&D Centre in Sofia. As an Embedded Software Intern you will work on special projects under the direction and supervision of our Leading Embedded Software engineers and will be provided with tasks that are both technically challenging and educationally stimulating. You will also be involved in interesting lecture sessions which will help you immerse into the great world of Automotive Electronics and C Embedded Programming/Validation. The internship program is ideal for anyone looking to work with cutting edge technology in a team of top-notch Engineers.

Who is eligible for our Internship Program?

Students 3rd/4th year, master students or Graduates (Bachelor or Master Degree) in Electronics, Computer Science or Informatics with an Emphasis on Embedded Systems

The Internship Program details:

Period: Oct 3, 2016 – Jan 31, 2017

Working Hours: flexible working time (4, 6 and 8-hour working day)

Payment: the internship program is paid

Possibility for employment: those who successfully pass the whole program will be offered a permanent job in the company

Vacancies: 15 interns

Successful interns possess:

Good knowledge in C programming

Good level of English (both verbal and written)

Basic knowledge of HW

Passion for C Embedded programming and a desire to carve out a career in the field

Strong orientation towards quality and continuous improvement

Great attention to detail

KOSTAL Group develops and manufactures technologically advanced electronic, electromechanical and mechatronic products. The Group has 39 locations world-wide in 18 countries on four continents, with a work-force of about 16 000 people, ensuring competent and flexible service on a local basis.

The KOSTAL automotive electrical systems division product range extends from steering column switches to complete, integrated modules which we are very proud to have been delivering for over 50 years now. Visit our website for more information about the company: www.kostal.com

So, if you have strong interest in the automotive industry and your future is Embedded Software, please send us your CV in English for immediate consideration at mihail.gagov@hmglinks.com

Feel free to share the great news with your friends as we are happy to train interns hungry for learning and ready to put their education to work in the “real world!”

KOSTAL is committed to equal employment opportunity, diversity and inclusion in the workplace. We are looking for male and female interns alike. Only short-listed candidates will be contacted.
