WHO WE ARE

For over 25 years, our businesses have gone out of their way to gather the very best data and analysis available for emerging markets. We deliver hard-to-get information products to institutional customers around the world on subscription basis. We believe we have a unique model that relies on local expertise and relationships, a quality assurance process that is second to none and the implementation of leading technology to deliver information in the ways our customers need it. We have over 500 employees based in 18 offices in both emerging and developed countries

EMIS is a web based product, focused on delivering news, company, industry, financial, legal and macroeconomic information on emerging markets around the world. Our clients include top investment banks, corporations, law firms, consultants, investment and insurance companies, universities and libraries, multilateral organizations, and others.

CEIC Data provides high-quality macroeconomic databases and has built its reputation in the financial information service industry on accuracy, service, and comprehensiveness.

Internet Securities Bulgaria Ltd. was founded in 1997 in Sofia, Bulgaria. Sofia office has grown to be the biggest office of the Group with 200+ employees, hiring highly educated professionals to develop and support our flagship products
