DATA SCIENTIST TRAINEE

Our company, [GemSeek Consulting Ltd.](#) is a fast growing research, market intelligence and analytics company headquartered in Amsterdam with offices in Sofia and Middle East. Our clients are F500 multinational companies and leading consultancy firms in Western Europe. We help our clients make informed decisions about their business growth opportunities based on rigorous analyses and forecasts.

We are launching our 2015 Internship program!

We are always looking for the brightest! We are building our foundation of success by selecting and developing the best talents!

[At GemSeek you will:](#)

TRAIN

- Responding to various requests related to quantitative simulations, strategy studies, index/benchmark studies, forecasts
- Participating in Model Design to align with known business facts and available data
- Providing help with additional data processing and mathematical computations
- Reaching out to internal and external resources to improve and update the business and econometric consistency of existing models
- Performing additional data acquisition for statistical or analytical work from third party information sources (written reports, online databases, internal statistics etc.)
- Providing suggestions and consultations on specific quantitative techniques and analyses

DISCOVER

- A 3-month paid internship full of professional adventures
- Our competent, bright and supportive team to learn from
- Opportunities to learn from international market intelligence

ACHIEVE

- A higher level of professional expertise
- A fruitful development which helps you to stay up-to-date with current research trends and discoveries

[IF YOU ARE](#) educated in Statistics, Econometrics, Applied Mathematics, Computer Science; proficient with MS Excel and English and with advanced data handling skills

[PREPARE](#) to be part of our team, to be inquisitive and inspired!

Are you already intrigued? Send your CV to hr@gemseek.com. We're looking forward to reading your resume!
