ZAD ALLIANZ BULGARIA

INTERNSHIP IN PRODUCT PRICING

Department description / job purpose / role

Product Pricing is a key function of Allianz Bulgaria Property and Casualty, ensuring the proper level of customer segmentation, technical provisions, and compliance to Group Best Practices. Within the program, you will get to know how to price insurance products, according to company financial targets. The internship will allow you to deep dive into the pricing process – from data cleansing to pricing documentation.

Key responsibilities/What you do

- Provide administrative and operational support on activities like preparing data in Excel, R or Python
- Doing calculations and technical analysis, assisting meetings, writing minutes, preparing pricing documents.
- Support the preparation of presentations with PowerPoint

Key requirements/What you bring

- Preferably, 3rd or Final year Student in finance, risk management, economics, insurance, mathematics, statistics, applied mathematics or other quantitative field.
- Excellent communication and organizational skills
- Proactive engagement and positive attitude
- Strong analytical, numerical and problem solving skills
- Excellent computer literacy (MS Office)
- Knowledge of statistical software (R, Python, Matlab) is an advantage.
- Fluency in English
- Interest to work in a diverse environment with international exposure
- Eagerness to learn and ability to perform tasks independently

Key benefits/What we offer

- Dynamic and interesting work
- Chance to gain knowledge of latest insurance industry trends
- Opportunity to develop professional skills and career in product pricing.
