

Internship Program for QA Engineer

Software AG Development Center Bulgaria, a subsidiary of Software AG, is one of the fastest growing software companies in Bulgaria. We have established a technology development office in the heart of Sofia focused on the development and enhancement of our Digital Business Platform. For our internship program, we are looking for a very motivated student to join one of our Research & Development Departments. The development team consists of highly experienced software engineers and follows the SCRUM/AGILE principles. The successful intern will take part in the overall Software Development process and will work in close collaboration with all teams.

ABOUT THE JOB

- Help the team to improve the product quality and to support and develop the build/test infrastructure.
- Maintain and enhance the CI/CD infrastructure of the product.
- Participate in the internal team learning and knowledge sharing sessions.
- Be engaged in the full development life cycle of our product.

ABOUT YOU

- Interested in QA and Automation
- Enjoys the challenge of solving problems
- Willing to learn new things
- Completed projects in Java (either university or job related) are an advantage.
- Interested or knows Java (or another programming language) and the OOP principles

Please share some samples of your work. We would love to see them.

WHAT YOU CAN EXPECT

- Environment in which your opinion matters
- Chance to learn and work with professionals in an international environment
- Improve your skills in modern software technologies
- Competitive remuneration package
- Flexible working hours
- Fun and comfortable working atmosphere
- Prospective full-time employment

OUR PROFILE

Software AG helps organizations achieve their business objectives faster. The company's big data, integration and business process technologies enable customers to drive operational efficiency, modernize their systems and optimize processes for smarter decisions and better service. Building on over 40 years of customer-centric innovation, the company is ranked as a "leader" in more than a dozen market categories. Our headquarters are in Germany. We have R&D centers in all major IT hubs in the world. Our Bulgarian

office was established in 2006 and grew significantly over the past 14 years. In Sofia we employ 250+ people in various departments, such as R&D, Global Consulting, Global Information Services, Marketing, HR, and Administration. We have established ourselves as the third largest R&D center of the company.
