Raven Scholarship

🧠 Who We Are

Raven is a Sofia-based high-frequency crypto trading company operating across global centralized and decentralized markets. We specialize in low-latency algorithmic strategies, blockchain development, and Web3 infrastructure.

🏆 What We're Offering

- Two Tracks:
  - **Quant** – Math, statistics, signal analysis, Python
  - **Dev** – Blockchain tools, smart contracts, trading bots
- Summer Internship – Paid internship on live crypto projects
- Scholarships – Up to 1500 BGN per student for selected winners

🤝 How You Can Help

- Sharing the program via internal mailing lists
- Posting in class/club Facebook groups
- Connecting us with relevant professors or student orgs

🎯 Why We're Doing This

- Support top Bulgarian students in tech and quantitative fields
- Introduce them to HFT and algorithmic trading
- Bridge the gap between academia and real-world innovation

👨‍🎓 Who Can Apply

- 3rd or 4th-year students from across Bulgaria
- Fields: Applied Math, Informatics, CS, Engineering, Finance, Physics
- With interest in trading, blockchain, or Web3

📌 How It Works

- Students register via our website
- On a fixed date, each applicant receives a challenge task
- They will have 1 week to complete it
- Submissions are made via our application portal
- We review all projects and invite selected candidates for a short interview (15–20 mins)
- Winners are awarded a scholarship, internship, or both

📅 Tentative Timeline

- Registration Opens: June 10
- Task Release: June 25
- Submission Deadline: July 7
- Winner Announcements: Mid-July
