WE ARE HIRING JUNIOR WEB DEVELOPER TRAINEE

Hey, you! We're Accenture. Our team is working with the biggest companies all over the world, with more than 469,000 people serving clients in more than 120 countries, we drive innovation to improve the way the world works and lives. We're really happy to inform you that in May 2019, we will be launching our new Junior Web Training Program. Our mission is to attract talented people who we can develop within the company and help them become better professionals. Wanna know more?

Our Training Program Includes:
- **3-4 weeks of full-time, intensive training** with a certified trainer on Server-side JavaScript, Version Control, best coding practices and much more…
- **Focus on gaining practical knowledge with a little bit of theory**, because we know how important it is and…
- **Certificate for successful completion of the training** so use can use it in the future, plus…
- **Standard labor contract and all social packages and benefits** of the company, because we believe in you.

WHAT WILL YOUR ROLE BE:

During the first 3 weeks you will participate in an intensive training with various tasks and work closely with motivated people. Isn't that great?

After the program you will:
- Then you will develop solutions for Accenture clients with the SFCC/Demandware platform;
- Produce complete, correct, reliable, readable and scalable code;
- Work closely w/ Technical Architect, Front-end developers, QAs, Business Analyst, Release engineers, and Support analysts.
- Participate in the implementation of the various company projects working closely with more senior and helpful colleagues.

WHAT IS REQUIRED:

Knowledge (and possibly experience) in:

- Basic understanding of CSS, AJAX
- Object Oriented programming and design
- Experience with version control systems
- Knowledge in HTTP, HTML, Java Script

Be yourself and show us:

- Confidence, proactive thinking and self-motivation.
- Good analytical thinking and strong communications skills.
- How good of a team player you can be.
- A computer science or related technical degree.
- any related certificate or training /will be a plus/

YOU WILL BE LOCATED IN…

Our Sofia office /63 Kazbek str./

WE ARE OFFERING YOU…

Everything you ever wanted from a job and even more! We value our people and therefore we offer them a substantial remuneration package for all roles, which includes:

- Opportunities for career progression.
- Open communication with the management team.
- Comprehensive and flexible benefits package. You choose your own social benefits.
- Additional paid annual holiday. Get some more rest!
- Option to join the company share scheme. For the entrepreneurs out there.
- Ongoing training in new/existing technologies.
- A brand new and modern office. We're excellent interior designers at heart.
- Regular team socials.

JOIN ACCENTURE BECAUSE…

…we will never ask you how you picture yourself in the next five years. Our team is looking for outstanding individuals that know how fast paced today's working

environment is. Who knows what'll happen in the next few years? Maybe you will already be a project manager or maybe you will be a full time parent.
