

Intern/Junior Python Developer

Pytek is a fast growing IT company. We combine innovative thinking with industry knowledge to deliver business, digital and technology services.

The backend team is in need of intern/junior developers that are ready to jump in the web development world and develop next generation software solutions.

If you have:

- Good/Basic knowledge of Python (3.X), Django (2.X, 3.X);
- Basic knowledge in OOP, MVT, PostgreSQL, MySQL, Git;
- Bachelor's degree (preference given to Computer Science, Engineering, Informatics) or equivalent experience;
- Good understanding of English;
- Knowledge with RESTful APIs (Django REST Framework) is a plus;
- Knowledge with Linux(Debian, Ubuntu) is a plus.

If you describe yourself as:

- Ambitious
- Team player
- Communicative
- Loyal

We offer:

- A teammate always ready to help or share knowledge;
- Flexible working hours;
- Position, financial and knowledge growth based on your performance;
- Monthly feedback;
- Great working environment;
- Contract with Pytek OOD

If you like the idea to be a part of our backend team, then we're looking forward to receiving your CV by email: gergana.petrova@pytek.bg
