

# FULL STACK DEVELOPER TRAINEE

**Catenate** is an international company with offices in München(DE), Baar (CH), Rome(IT), Sofia(BG) and Amsterdam(NL).

**Catenate** is a Business Integration company. We provide our clients with Business Integration consulting, technologies and solutions.

Our team has many years of project management expertise, as well as extensive IT and process & strategy expertise. Our industry-wide benchmarking experience gives our clients an insight into the best Business Integration practices in the Telecommunications, Automotive, Engineering, Railway, Oil & Gas, Chemical, Transportation, Electronics & High-Technology and Financial Industries.

**Catenate** Trainee Program targets talented IT students who would like to make their first professional steps into software development. As part of the program you will go through theoretical and practical tasks which will help you to build a robust knowledge base for your future professional life. The best performing trainees will continue participate in real projects for giants as BMW, Vodafone, Allianz etc.
