

Front-End Developer (JavaScript, Angular)

Synergy GFS is an international company focused on delivering software and IT services to banks and financial institutions all around the world. What's important to us is working closely with our customers to meet their unique challenges and reach their strategic goals through excellence in omnichannel banking.

We are looking for great **JavaScript developers** who will be responsible for implementing new features, bug fixing while keeping project standards, following clean code principles.

Responsibilities:

- Design and develop UIs, building reusable components and front-end libraries for future use;
- Develop production front-end code, AngularJS, JavaScript;
- Write readable and maintainable code that is adequately documented;
- Work with the back-end team for implementing RESTful API integration;
- Take an active role in requirements clarification, planning, design;
- Secure all vital operations by keeping all IT and security information confidential.

Skills:

- Strong proficiency in JavaScript, jQuery, AngularJS, HTML and CSS;
- Ability to understand business requirements and translate them into technical requirements;
- Experience in designing and developing web services using REST and JSON;
- Familiarity with project management tools (JIRA or similar) and code versioning tools (Git);
- Good written/spoken level of English;
- Ability to work effectively in a collaborative team environment;
- Self-motivated, independent and a good communicator;
- 1+ years professional experience with UI and front-end web programming.

Advantages:

- SQL/PL SQL experience is a plus;
- Familiarity with Oracle DB is considered as an advantage;

We offer:

- To make an impact in terms of development of end to end business solutions by offering an innovative approach.
- Work with interesting people in a friendly environment.
- Attractive remuneration package with medical insurance.
- Great business building location.
- Specific growth opportunities:

Synergy has rather horizontal hierarchical structure, where people are working in teams. We consider this approach very successful and attractive for the employees.

Join us today and become part of the future - changing the world with advanced software technologies, delivered to major financial institutions around the globe.

If you are interested in moving forward with Synergy, please send your CV to stanimira.dimova@synergyqfs.com

Only short-listed candidates will be contacted. All applications will be treated with strict confidentiality
