GoBoiler Internship August and September 2018 Fully-funded, on-campus research experience

Designed to generate interest in graduate study, the **GoBoiler Internship** is an eight-week, fully-funded research experience at Purdue University in West Lafayette, Indiana.

Set to take place in August and September 2018, the internship will pair you with a Purdue faculty member for a computer science research project. You will live on campus while you complete your research, meet computer science grad students and faculty, and experience life at Purdue.

Fully funded:

\$2,000 in travel expenses

\$3,500 stipend

**Ready to embrace your future?
Apply for the GoBoiler Internship.**
