Interoute: From the Ground to the Cloud

Interoute owns the largest Next Generation Network covering the European Union, from London to Warsaw, from Stockholm to Sicily and beyond into the Continent's emerging economies, including Turkey, with nine subsea landing stations ringing the edge of Europe. To the West, the network links to North America's major telecoms hub.

To the East, the network connects the Middle East to Europe through Dubai. In the South, Africa from Cape Town to Tunis connects directly to Europe through Interoute.

IGNITION: Interoute's Graduate Program

As our customers demand increased bandwidth and intelligent solutions for their businesses, we must meet their needs not only with our unique physical network, but also with our most valuable resource; our people. It is an exciting time to join Interoute. We have completed plans for this year's Graduate Program and are ready to meet the next members of our growing team in Sofia, Bulgaria.

Interoute's HR and Senior Management have been working on a Graduate Recruitment Programme throughout Central & Eastern Europe to attract top quality graduates to accept a career at Interoute. We hired more than 50 Graduates since the program's start in 2007. Based on the program's success, we are expanding the program in 2013 to 12 additional spaces.
