mobisystems

Experienced Android Developer – UBReader

WHO ARE WE?

MobiSystems (Mobile Systems) is the only Bulgarian company that creates and sells its own mobile apps since 2001. It is the company behind OfficeSuite and File Commander – two of the Top 10 apps the Google Play Business category. These apps have been installed on more than 300 million devices.

MobiSystems is also the creator of the Universal Book Reader app - an electronic book reader with more than 5 million downloads.

Currently we have over 120 employees in our Headquarters in Sofia.

WHAT ARE WE LOOKING FOR?

We are looking for a senior Android Java developer to join the team that is enhancing the UBreader application with the many new features planned for it.

Requirements:

o   3+ years of experience with Android development of apps with complex UX requirements
o   Proven ability to comprehend and evolve an existing code base in a practical manner
o   Able to work in a small team consisting of another (senior) mobile developer, a UX designer, a product manager and a QA.
o   M.Sc. or B.Sc. in Informatics, Computer Science, Engineering or equivalent
o   Living in Sofia or willing to relocate

WHAT DO WE OFFER?

o   Work at the Headquarters of a product company and influence one of its products
o   A work-environment with flexible working time, no overtime and no artificial deadlines
o   A great location – right next to a metro station, Paradise Mall and the best park in Sofia
o   Very competitive annual compensation – 50.000 – 100.000 BGN

If you are interested, please send your CV to jobs@mobisystems.com. Only short-listed candidates will be contacted.
