mobisystems

Junior Mobile Application Developers for iOS

Who are we?

MobiSystems (Mobile Systems) is the only Bulgarian company that creates and sells its own mobile apps since 2001. It is the company behind OfficeSuite and File Commander – two of the Top 10 apps from the Google Play Business category. These apps have been installed on more than 300 million devices. Currently we have over 120 employees in Sofia.

What are we looking for?

As a Junior iOS Mobile Application Developer you will be working in the digital space creating applications that millions of users around the world will have access to. Want to jump start your career? Join us!

Requirements:

- Experience with C++
- Strong analytical and problem solving skills
- Good understanding of English
- Strong communication skills & willingness to work in a team
- M.Sc. or B.Sc. in Informatics, Computer Science, Engineering or equivalent will be considered as an advantage. Last year students are welcome.
- Experience in Android, iOS or Windows Mobile development will be considered as an advantage

What do we offer?

- Ability to present your ideas in a truly flat organization: one that gives you equal chances with experienced colleagues
- Great salary according to your qualifications and performance
- Access to the latest technologies and devices
- Stable and long term contracts
- A young and friendly team to work in

If you are interested, please send your CV to jobs@mobisystems.com. Only short-listed candidates will be contacted.
