

# Junior Mobile Application Developer for iOS

## Who are we?

MobiSystems is the company behind OfficeSuite and File Commander – both ranked amongst the top 10 Google Play Business apps and installed on more than 300 million devices worldwide. MobiSystems creates and sells its own mobile apps since 2001. It is also the developer and exclusive publisher of a range of best-selling mobile dictionary apps based on data from Oxford University Press, Harper Collins and a few other top publishers.

Currently we have over 150 employees in our headquarters in Bulgaria and offices in the US, Japan and Sweden.

## What are we looking for?

As a Junior iOS Mobile Application Developer you will be working in the digital space creating applications that millions of users around the world will have access to. Want to jump start your career? Join us!

## Requirements:

- Experience with Objective-C;
- Experience with Swift;
- Strong analytical and problem solving skills;
- Good understanding of English;
- Strong communication skills & willingness to work in a team;
- M.Sc. or B.Sc. in Informatics, Computer Science, Engineering or equivalent will be considered as an advantage. Last year students are welcome.

## We offer:

- Ability to present your ideas in a truly flat organization: one that gives you equal chances with experienced colleagues;
- Starting net salary 1500 BGN;
- Access to the latest technologies and devices;
- Stable and long term contract;
- A young and friendly team to work in;
- Multiple secondary benefits: additional health insurance, sport cards, extra days off, home office, etc.;
- A great location – right next to a metro station, Paradise Center and the best park in Sofia.

If you are interested, please send your CV to [jobs@mobisystems.com](mailto:jobs@mobisystems.com). Only short-listed candidates will be contacted. All applications will be treated with strict confidentiality.
