

## Junior PHP Developer

Trader.bg is looking for a superhero Junior PHP Developer.

Desired superpowers:

- \* 1+ years of experience in writing high-quality PHP5 code and reusable components;
- \* Using secure coding practices;
- \* Spiderman-like knowledge of web usability secrets;
- \* Managing web servers and relational databases (MySQL);
- \* As familiar with XHTML, CSS and JavaScript as Batman is with the Batmobile.

And more:

- \* Well-read and analytical as Iron Man (and charming as his alter-ego Tony Stark!);
- \* Incredible as the Hulk;
- \* Reliable as Captain America;
- \* Flexible as Elastigirl;
- \* Team player like the Avengers;
- \* Fast like the Flash.

The following secret weapons will help in the quest:

- \* Experience with PHP MVC frameworks (Zend Framework);
- \* Experience with JavaScript frameworks (DOJO, jQuery, ExtJS).

The perks:

- \* Working with the League of the Extraordinary;
- \* Juicy remuneration package;
- \* Extra days off to re-charge your superpowers.

Job postings rarely tell the whole story. Like our job ads, we are better live than on the screen. Why not apply and see how much more we can offer? Send your **CV** to **hr@trading212.com**
