

## DevOps & Automation Interns

### Are you interested in an internship in Software Development, DevOps & Automation in the Automotive Industry?

The **vacancies** are for undergraduates (3<sup>rd</sup> or 4<sup>th</sup> year), master students or Graduates (Bachelor or Master Degree) in Computer Science, Informatics or a relevant discipline

**Field:** Automotive Automation Development

Delivering outstanding software requires a solid process, thorough automation, and actionable metrics; DevOps is a new discipline that streamlines the craft of software engineering, improving developer output, increasing job satisfaction, and allowing companies to work smarter, faster, and deliver more often and with higher quality.

#### Successful Interns Have:

Good knowledge in Java or Python  
Very good level of English (both spoken and written)  
Interest in CI/CD, DevOps, and automation  
Desire to learn and master multiple technologies

#### You will Get the Opportunity to:

Work on real tasks  
Develop and maintain software written in Python, Java, JavaScript, Groovy, and Golang  
Configure, maintain and administer industry-standard software like Jenkins, Zabbix, and Artifactory  
Help drive the DevOps change at a large, multi-national company  
Suggest and implement new solutions  
Be part of an international team spread across the globe

**Location:** Software Toolchain/Automation Development Team of Kostal in Sofia (Polygraphia Office Centre)

**Opportunity for employment:** Those who successfully pass the whole program will be offered a permanent job in the company

**Working Hours:** flexible working time (4, 6 and 8-hour working day)

**Payment:** the internship program is paid

KOSTAL Group develops and manufactures technologically advanced electronic, electromechanical and mechatronic products. The Group has 46 locations world-wide in 21 countries on four continents, with a work-force of about 18 000 people, ensuring competent and flexible service on a local basis.

The KOSTAL automotive electrical systems division product range extends from steering column switches to complete, integrated modules which we are very proud to have been delivering for over 50 years now. Visit our website for more information about the company: [www.kostal.com](http://www.kostal.com)

So, if you have strong interest in automation processes and tools development and would like to further develop your skills in Python, Java, JavaScript, and Golang, please send us your CV in English for immediate consideration at [bg\\_jobs\\_kobu-so@kostal.com](mailto:bg_jobs_kobu-so@kostal.com).

Feel free to share the great news with your friends as we are happy to train interns hungry for learning and ready to put their education to work in the “real world!”

KOSTAL is committed to equal employment opportunity, diversity and inclusion in the workplace. We are looking for male and female interns alike.
