

See the future. Help create it.

Microservices Developer

Introduction:

Paysafe was created in November 2015 as a result of the Optimal Payments' acquisition of Skrill Group earlier that year.

Paysafe Group plc is quoted on the London Stock Exchange's FTSE 250, with a ticker symbol of PAYS.

There is an opportunity for Software Engineers in our office in Sofia:

TO JOIN OUR TEAM YOU SHOULD HAVE EXPERIENCE IN MOST OF THE FOLLOWING:

- Build REST Microservices
- Java 8 SE or other Object-oriented language · HTTP(S) protocol and Web Services
- Traditional relational database technologies I.e. Oracle, MySQL or PostgreSQL

If you lack experience in Java, but have strong background in another OO language – Delphi, .Net/C#, C++, etc., we are ready to provide you learning opportunities to switch to Java so you can benefit from working with our great team.

YOU SHOULD HAVE INTEREST IN:

- Microservices architecture
- Full stack development
- Code quality
- Test Automation Development

KNOWLEDGE ABOUT ANY OF THESE IS A PLUS:

- noSQL document DBs (Hadoop, MapR, MongoDB, etc.)
- Agile development methodologies
- OWASP Top 10
- Modern revision control systems I.e GIT or Mercurial

We offer

- Interesting and fulfilling projects and products
- Fun and collaborative working atmosphere in our cool new office
- Environment where product expertise, professional and personal commitment are rewarded
- Conference attendance in Bulgaria and abroad
- Training by your choice supporting your development in software engineering and online payments
- Competitive salary, additional health insurance, parking, fitness in the building, free multisport card

Are you up to the challenge? We are expecting your CV today. Only shortlisted candidates will be contacted for an interview.

We are Paysafe

We believe that every point of every payment should be relevant, simple and secure.

Main locations

Background

Paysafe provides digital payments and transaction-related solutions to businesses and consumers around the world. Paysafe makes transactions easy by enabling fast, convenient and secure ways to pay-before, pay-now and paylater through its digital wallets, prepaid solution, payment processing and card issuing & acquiring products and services. We believe that every point of every payment should be relevant, simple and secure.

Our staff of over 2,100 includes more than 30 nationalities, based at our offices throughout the world. With nearly two decades of experience,

Paysafe is trusted by merchants, and by consumers in more than 200 countries and territories, to move and manage money via more than 100 payment types and 40 currencies. Paysafe offers multiplatform products with an emphasis on emerging payment technologies including mobile. Paysafe's brand portfolio includes NETELLER® and Skrill®, MeritCard, paysafecard®, payolution® and FANS Entertainment.

Paysafe Group plc shares trade on the London Stock Exchange under the symbol (PAYS.L).

Values

Open

We are open and transparent in the way we work together, building trustworthy relationships with our colleagues, customers and shareholders.

Focused

We are results-driven, achieving our goals by delivering relevant solutions that meet our customers' needs.

Courageous

We encourage empowered people to be brave when challenging the status quo, and decisive when proposing and implementing the resulting change.

Pioneering

We are curious and collaborate to find innovative ways to improve our business.

The Paysafe Group
