

84 nationalities. Thousand innovative ideas.

Johnson Controls is a global diversified technology and industrial leader serving customers in more than 150 countries. Our 162,000 employees create quality products, services and solutions to optimize energy and operational efficiencies of buildings; lead-acid automotive batteries and advanced batteries for hybrid and electric vehicles; and interior systems for automobiles. Our commitment to sustainability dates back to our roots in 1885, with the invention of the first electric room thermostat. Through our growth strategies and by increasing market share we are committed to delivering value to shareholders and making our customers successful. In 2011, Corporate Responsibility Magazine recognized Johnson Controls as the #1 company in its annual "100 Best Corporate Citizens" list. For our Design Center in Sofia, part of JCI Automotive Group, we are now looking for a communicative and organized person to join our team at the position of:

Multimedia & Infotainment SW Engineers

Your responsibilities:

- Take part of product definition and analysis of customer's requirements.
- Create software architecture and design.
- Develop software as per system requirements and design.
- Provide expertise on different possible approaches for software solutions
- Coach team members to increase efficiency and knowledge
- Estimate and plan software tasks
- Analyze and optimize SW Design & Code.

Your qualifications:

- University degree in the area of Informatics, Computer Systems or Information Technologies
- At least 3 years of professional experience in C/C++ programming language
- Professional experience in design of complex software systems
- Experience with software developmental life cycle including version control, change management and configuration management

Experience in one or more of the following areas will be considered as an advantage:

2D/3D Graphics

Object Oriented Programming in multi process/ thread environment.

Java, Python programming

Audio/Video multimedia

System knowledge in Linux/QNX OS

- Because Johnson Controls operates internationally, very good English is important for the positions. It is an advantage for you to have knowledge in French or German languages.

Design your own future at an international company with a dynamic growth curve. Johnson Controls is committed to equal employment opportunity, diversity and inclusion in the workplace. We are looking for male and female candidates alike. Please send it to us via the Careers page on our website:
