

Despark is an award-winning digital studio. Our passion is in the production of highly interactive, functional, beautiful work for web, mobile, tablet & social media; we work with "TechCrunched" & Y-Combinator startups, such as OpenBuildings, Clippings, CampusFoods (now GrubHub), AeroFS, GazziliWorld and others as well as large clients like Ikea, Wiley, Tefal, British Gas, Samsung, Becks, Johnnie Walker and more. We think "outside the box" and like to take on challenging projects that require creative solutions.

We're looking for a Senior PHP developer to join our team and work with us on projects for amazing companies & brands all around the world. We are looking for someone who:

- Has in-depth knowledge of Object-Oriented PHP5.x.
- Has experience with MySQL 5.x
- Experience with Kohana Framework is plus
- Has experience with Javascript (CoffeeScript is a plus) , HTML, CSS (Sass/Less is a plus)

We offer:

- Really Flexible working hours to suit your lifestyle. As long as targets are met and work is done, we're happy.
- An informal atmosphere with a young team who have strong and friendly ties; on a day to day working basis there are no "Managers", everyone is part of the same team.
- An opportunity to work "out of the box" – we are very open to creative ideas and are willing to make them happen; we want to be different.
- An Attractive base salary as well as a substantial % of profit of all new business brought to the company by you.

How to Apply:

If you are interested in applying for the job, please send us your CV to [zpaskaleva@despark.com](mailto:zpaskaleva@despark.com). Candidates who are deemed suitable for the job will be contacted and invited to an interview.
