

Project Manager

Pytek is a fast growing IT company. We combine innovative thinking with industry knowledge to deliver business, digital and technology services. Our team is full of young and ambitious people who want to become the best at what they do. All of us share the same values; have a vision of where we want to go and how we will achieve it!

Pytek is looking for Project Manager with technical knowledge who can develop next generation software solutions including responsive web sites and hybrid mobile applications.

Responsibilities:

- Lead the team through the planning process and use effective project approaches with the goal of meeting business and IT objectives;
- Define project scope and objectives;
- Conducts project meetings and is responsible for project results;
- Ensure effective, timely, and consistent communication with internal staff and clients at all levels of the organization. This includes tasks and due dates for project team members;
- Build, develop, and grow any business knowledge and business relationships;
- Improve the planning and delivery process by collecting and maintaining data in a consistent form;
- Based knowledge of programming.

What We Are Looking For:

- Bachelor's degree (preference given to Computer Science, Engineering, Informatics) or equivalent experience;
- Detail oriented with strong organizational skills;
- Can execute on deliverables with little to no guidance;
- Ability to adapt quickly for changes

If you're looking forward to progressing your career with us, then we're looking forward to receiving your CV by email: gergana.petrova@pytek.bg
